Summary of the working program of the academic discipline

«CONFLICTOLOGY»
(name of the academic discipline)
General Educational Program of higher education (specialist's degree programs)
_____31.05.01 GENERAL MEDICINE _____
code, name of the specialty

Department: **PSYCHIATRY**

1. The purpose of mastering the discipline (*participation in the formation of relevant competencies – specify the codes)*: UK-2, UK-4, UK-5, OPK-1, OPK-10.

2. Position of the academic discipline in the structure of the General Educational Program (GEP).

2.1. The discipline refers to the core part *(or the part formed by the participants of educational relations)* of Block 1 of GEP HE, elective disciplines, additional disciplines.

The discipline belongs to the variable part of Unit 1 of the ООР VO (В1.В.ОД.16), studied in the 6th year, in the 12th semester.

3. Deliverables of mastering the academic discipline and metrics of competence acquisition

Mastering the discipline aims at acquiring the following universal (UC) or/and general professional (GPC) or/and professional (PC) competencies

№	Compet ence code	The content of the competence (or its part)	Code and name of the competence acquisition metric	As a result of mastering the discipline, the students should:		
				know	be able to	possess
1.	UC-1	Able to carry out a critical analysis of problem situations based on a systematic approach, develop an action strategy	1.1 Knows: methods of critical analysis and evaluation of modern scientific achievements; basic principles of critical analysis 1.2 Able to: gain new knowledge based on analysis, synthesis, etc.; collect data on complex scientific problems related to the professional field; search for information and solutions based on action, experiment and experience 1.3 Has practical experience: researching the problem of professional activity using analysis, synthesis and other methods of intellectual activity; developing an action strategy to solve professional problems	: methods of critical analysis and evaluation of modern scientific achievements; basic principles of critical analysis	gain new knowledge based on analysis, synthesis, etc.; collect data on complex scientific problems related to the professional field; search for information and solutions based on action, experiment and experience	Has practical experience: researching the problem of professional activity using analysis, synthesis and other methods of intellectual activity; developing an action strategy to solve professional problems
2.	UC-4.	Able to apply modern communica tion technologie s, including the use of a foreign language(s) , for academic and professiona l interaction	4.1 Knows: the basics of oral and written communication in Russian and foreign languages, functional styles of the native language, requirements to business communication, modern means of information and communication technologies 4.2 Able to: express thoughts in Russian and a foreign language in business communication 4.3 Has practical experience in: writing texts in Russian and foreign languages related to the professional activity; experience in	the basics of oral and written communication in Russian and foreign languages, functional styles of the native language, requirements to business communication, modern means of information and communication technologies	Able to: express thoughts in Russian and a foreign language in business communication	Has practical experience in: writing texts in Russian and foreign languages related to the professional activity; experience in translating medical texts from a foreign language into Russian; experience in

			translating medical texts from a foreign language into Russian; experience in speaking Russian and foreign languages.			speaking Russian and foreign languages.
3.	UC-5.	Able to analyze and take into account the diversity of cultures in the process of cross-cultural interaction	5.1 Knows: the main categories of philosophy, the laws of historical development, the basics of intercultural communication; the basic concepts of human interaction in the organization 5.2 Able to: competently, intelligibly present professional information in the process of intercultural interaction; observe ethical norms and human rights; analyze the features of social interaction taking into account national, ethno-cultural, confessional features Has practical experience in: productive interaction in the professional environment taking into account national, ethno-cultural, confessional features; overcoming communicative, educational, ethnic, confessional and other barriers in the process of intercultural interaction	the main categories of philosophy, the laws of historical development, the basics of intercultural communication; the basic concepts of human interaction in the organization	competently, intelligibly present professional information in the process of intercultural interaction; observe ethical norms and human rights; analyze the features of social interaction taking into account national, ethno-cultural, confessional features	
4.	GPC-1.	Able to implement moral and legal norms, ethical and deontological principles in professional activities	1.1 Knows: basics of medical ethics and deontology; fundamentals of legislation in the field of healthcare; legal aspects of medical practice 1.2 Able to: apply ethical norms and principles of behavior of a healthcare worker in the performance of their professional duties; knowledge of modern legislation in the field of healthcare in solving problems of professional activity; apply the rules and norms of interaction between a doctor and colleagues and patients (their legal representatives) 1.3 Has practical experience in: solving standard problems of professional activity based on ethical norms and deontological principles when interacting with colleagues and patients (their legal representatives), knowledge of the legal aspects of medical practice	basics of medical ethics and deontology; fundamentals of legislation in the field of healthcare; legal aspects of medical practice	apply ethical norms and principles of behavior of a healthcare worker in the performance of their professional duties; knowledge of modern legislation in the field of healthcare in solving problems of professional activity; apply the rules and norms of interaction between a doctor and colleagues and patients (their legal representatives)	Has practical experience in: solving standard problems of professional activity based on ethical norms and deontological principles when interacting with colleagues and patients (their legal representatives), knowledge of the legal aspects of medical practice
5.	GPC-10.	Able to understand the principles of modern information technologies and use them to solve the tasks of professional activity	10.1 Knows: the capabilities of reference information systems and professional databases; methods of information retrieval, information and communication technologies; modern medical and biological terminology; fundamentals of information security in professional activities 10.2 Able to: apply modern information and communication technologies to solve the tasks of professional activity; carry out an effective search for information necessary to solve the tasks of professional activity using reference systems and professional databases; use modern medical and biological	the capabilities of reference information systems and professional databases; methods of information retrieval, information and communication technologies; modern medical and biological terminology; fundamentals of information security in	apply modern information and communication technologies to solve the tasks of professional activity; carry out an effective search for information necessary to solve the tasks of professional activity using reference systems and professional databases; use modern medical and biological terminology; master and apply modern information and	Has practical experience in the use of modern information and bibliographic resources, the use of special software and automated information systems to solve standard tasks of professional activity, taking into account the basic requirements of

| | | terminology; master and apply modern information and communication technologies in professional activity, taking into account the basic requirements of information security 10.3 Has practical experience in the use of modern information and bibliographic resources, the use of special software and automated information systems to solve standard tasks of professional activity, taking into account the basic requirements of information security | professional activities | communication technologies in professional activity, taking into account the basic requirements of information security | information security |

4. Volume of the academic discipline and types of academic work

Total labor intensity of the discipline is _2_ CU (72 AH)

Type of educational work	Labor intensity		Labor intensity (AH) in semesters
	volume in credit units (CU)	volume in academic hours (AH)	
Classroom work, including	1,3	44	44
Lectures (L)	0,4	10	10
Laboratory practicum (LP)*		-	-
Practicals (P)	0,9	34	34
Seminars (S)			
Student's individual work (SIW)	0,7	28	28
Mid-term assessment			
credit/exam *(specify the type)*			
TOTAL LABOR INTENSITY	2	72	72

5. Sections of the academic discipline and competencies that are formed

№	Competence code	Section name of the discipline
1.	UK-2, UK-4, UK-5, OPK-1, OPK-10.	Section 1. Conflictology as a branch of scientific knowledge. The history of formation and development.
2.	UK-2, UK-4, UK-5, OPK-1, OPK-10.	Section 2. Conflict as a socio-psychological phenomenon.
3.	UK-2, UK-4, UK-5, OPK-1, OPK-10.	Section 3. Conflict management technologies: forecasting, settlement and prevention
